\* = rounds to zero

EU = European Union

<sup>a</sup>Article data refer to articles in the 3-year cited window, i.e., 2000 data are articles in 1996–98; 2010 data are articles in 2006–08.

NOTES: Article counts from set of journals covered by Science Citation Index (SCI) and Social Sciences Citation Index (SSCI). Articles classified by year they entered database and assigned to country/economy on basis of institutional address(es) listed on article. Articles/citations on fractional-count basis, i.e., for articles with collaborating institutions from multiple countries/economies, each country/economy receives fractional credit on basis of proportion of its participating institutions. See appendix table 5-25 for countries/economies included in EU and Asia-8. Citation data based on year article entered database. Citation data based on 3-year period with 2-year lag, e.g., citations for 2000 are references made in articles in 2000 data tape to articles in 1996–98 data tapes. Index of highly cited articles is share of world's top 1% cited articles divided by share of world articles in cited year window.
